

To whom it may concern

I have known Kim Prestwood of Sportslighting, for over 10 years and during that time he has been our floodlighting contractor carrying out our Lux level testing, servicing and repairs.

I have always found Kim to be courteous, reliable and dependable whenever we have needed his services. His work is always carried out in a professional manner and he is brilliant with all aspects of floodlighting, and is happy to visit a site to quote and give advice. With his terrific selection of hydraulic rams to raise and lower the columns, he can help solve many issues.

I would have no hesitation in highly recommending Kim Prestwood as an approved floodlighting contractor.

If you require any further information please contact me.

Many thanks
