To Whom it may concern

Exeter City have used Kim Prestwood of Sports Lighting for a number of years and together we have successfully been able to achieve the required standards of Lux Level for English Football League requirements.

Most recently the work has been around the redevelopment of St James Park including some challenging phases where they have worked with us to provide both the temporary and long term floodlighting solutions for the stadium.

Kim has been able to work closely with our supplier Thorn Lighting to ensure the project was designed and delivered to the necessary standards.

Yours faithfully

**Justin Quick**

General Manager
