Its been a while but I had to drop you a line to thank you and the team for the excellent job you carried out on our lights.

The amount of work that you put in pre installation made life so much easier, the fact that you spoke in detail with the ground works company enabled them to carry out the works to make your life easier when you arrived on site.

The plant turned up when you said it would , the materials turned up on the date , this planning shows the difference in a professional company and instils faith from a customer's perspective.

The actual lighting is amazing ! The ariel view / picture says it all so I don't need to say anything regarding the light quality.

It was a great pleasure to have you and your team on site and to see how you have helped us transform our ground to another level.

Many thanks for all the great work !!
