To Whom it may concern

Torridgeside AFC would like to thank Kim, James and the whole team at Sports lighting for the recent supply and insulation of our new floodlights. What started out as a daunting task for the club soon became straight forward after we had contacted Sports lighting and met Kim on site to discuss the installation. His professionalism and knowledge were a massive comfort as we were undertaking such a big project for a relatively new club. We need not have worried as everything was in good hands. Timescales were agreed and with regular contact and communications with Kim this ensured that the installation was not only completed to plan but ahead of schedule as well.

Torridgeside AFC would have no hesitation at all in recommending Sports lighting.

I would personally like to thank Kim, James and the team for their professional approach, knowledge, support and friendless.
