Sports Lighting Testimonial

I am writing as Chairman of Torpoint AFC to highlight the exceptional service, professionalism and technical prowess of Kim Prestwood and his team at Sports Lighting.

Due to recurrent issues with our halogen floodlight system and prohibitive maintenance costs Torpoint AFC have been working to upgrade to an LED system for the last two years. As a requirement of the Football Foundation FA Grant we had to get 3 quotes for this work. Sports Lighting were one of the companies we approached, and they have been excellent from the very outset.

Kim provided clear, concise and honest technical advice and support and was always readily on hand to support responses to technical queries from the FA Grant Approval authorities. The excellence of his support through the tender process went a long way towards us selecting Sports Lighting as the contractor to implement our upgrade.

The fitting of the new LED floodlight heads was professionally conducted by Kim, James and Nathan, who despite heavy rain showers throughout showed perseverance and professionalism and attention to detail in completing the work. The proof was very much in the pudding! The end result is a floodlight system that far surpasses even the results forecast by the system manufacturer, and this provides a fantastic environment for Torpoint AFC to enjoy evening and winter afternoon football.

I would totally recommend Sports Lighting to other clubs and the Football Foundation.

Thank you Kim, James and Nathan.

Yours sincerely,

Bill Booth
