Dear Kim,

Design and Installation of LED Floodlighting September 2022

I write on behalf of RWB Sports Association to thank you for Sports Lighting's recent installation of LED Floodlighting to our 3G AGP. Your professionalism and customer service through the design, quote, and installation enabled the project to progress to time and budget, and the resulting Lux levels are better than design. I know you were frustrated that due to the uneven wear of areas of the carpet and crumb infill, the pitch appeared to have dark spots and didn't show off the lighting as you'd wish, but the Lux readings demonstrated the true quality of the lighting installed.

We will certainly be in touch again should we be able to progress LED floodlighting upgrade to our Stadium Pitch and/or tennis courts. I'm happy to be contacted should any of your prospective clients wish me to reference your work.

Kind Regards,

Paul Harrison
RWBSA Projects Manager (voluntary)
