Dear Kim

## Sports Lighting Testimonial

I wanted to write to you to highlight the exceptional service, professionalism and technical prowess of your team at Sports Lighting.

Our club has been working towards upgrading our existing Halogen lights to a much more cost effective and environmentally friendly LED system. As a requirement of the Football Foundation Grant, we approached three companies for quotes. Sports Lighting were one of the companies we approached, and I would like to state on record they have been excellent from the first contact..

Clear, concise and honest technical advice was given and they were always available to help with any queries we had. The excellent support throughout the tender process combined with a very competitive quote meant we chose Sports Lighting for our installation.

On the day of installation all previously agreed meet times were adhered too. The fitting of the new LED floodlight heads was professionally conducted by Kim, James and Andy where they displayed professionalism and attention to detail whilst completing the work.

The result is a floodlight system that is far better than we envisaged and one that we are very proud of. The quality of the lighting all over the playing surface is superb whilst there are no dark areas which we had endured with the old system.

I would like to take this opportunity to 100% recommend Sports Lighting to any other club who are thinking about changing/upgrading their floodlights. I would be happy to speak to anyone personally to endorse this.

Yours sincerely
