Dear Kim

I'm writing to express our thanks following the installation of new LED floodlights at Astley Park, the home of Brixham RFC.

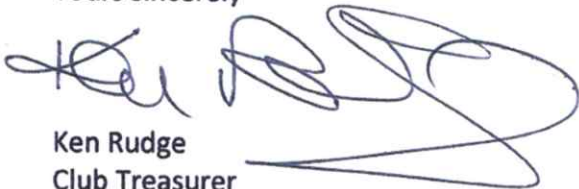

We are delighted with the outcome. Our new floodlights are brilliant! Literally! The quality of the lighting we will now enjoy for playing rugby at night or in low light conditions will be of the highest order.

This was a significant investment for the club and it took a lot of due diligence for us to be comfortable we were doing the right thing. I'm grateful to you for your patience and generosity with your time and information as you helped educate us. Sports Lighting are very clearly experts in this field. The planning and installation were delivered in a first class manner. You liaised exceptionally well with representatives from Brixham RFC and were flexible in your approach.

Thank you once again. We would highly recommend Sports Lighting to any sports venues looking to up their lighting game.

I'm looking forward to our first evening game where we will be able to enjoy our new lights in their full glory.

Yours sincerely

Ken Rudge  
Club Treasurer  
Brixham RFC
